

Bucket Hat Pattern

Watch our instructional video on our YouTube channel for instructions. Finished hat is about 23" crown circumference. Print on US Letter (8.5" x 11") at 100% scale. 1/4" seam allowance included.

When cutting the crown and brim, align fabric grain parallel to the fold lines.

Optional: use fusible stabilizer on the outside layer of fabric for a sturdier, more shaped hat.

Optional: for a wider brim, add 1/2" to the bottom of the brim.
